Career Objective

MCA student specializing in AI/ML with hands-on experience in building machine learning models, data analysis, and problem-solving. Strong foundation in UI/UX design, focused on creating intuitive and user-centred digital experiences, along with practical exposure to AWS Cloud for developing and deploying scalable solutions. Actively applying a combination of technical and design skills to build efficient, real-world applications.

Education

- **Master of Computer Application (MCA-AIML)** Chandigarh University, Unnao | 2025-2027 Current *CGPA: 7.91/10.0*
- **Bachelor of Computer Application (BCA)** CSJM University, Kanpur | 2022-2025 *Aggregate: 81.1%*
- **Intermediate (Class XII)** U.P. Board | 2022 *Percentage: 78.2%*
- **Highschool (Class X)** U.P. Board | 2020 *Percentage: 78.83%*

Internship Experience

UI/UX & Graphic Design Intern | Wyvate

June 2025 – July 2025

- Designed UI/UX interfaces and marketing creatives using **Figma**, supporting brand awareness across digital and offline channels.
- Created design assets aligned with product and campaign requirements, ensuring visual consistency.
- Contributed to improving user experience by applying design thinking and user-centric principles.

Academic Projects

S3 Static Website | Role: Cloud Developer

May 2024 – June 2024

- Configured bucket policies and permissions to enable secure public access.
- Developed and deployed a static website using **AWS S3**, ensuring reliable and scalable hosting.
- Optimized content management workflow for efficient updates and maintenance.

ResuFit | Role: AI Automation Developer

Jan 2025

- Engineered an automated workflow using **n8n** to analyse resumes and recommend relevant internships in real time.
- Built a Telegram bot to process PDF resumes, extract text, and generate summaries and job intent using **OpenAI**.
- Integrated **JSearch Rapid API** to fetch and filter internships based on skills, role, and location.

E-Visa UX Redesign | Role: UX Designer

Dec 2025 – Jan 2026

- Conducted UX audit to identify issues in information architecture, CTAs, and visual hierarchy.
- Redesigned homepage and user flow to improve task clarity and navigation.
- Reduced cognitive load through structured layout; published case study on Medium.

Technical Skills

- **Programming Languages & Libraries:** Python, C, C++, Numpy, Pandas, Sklearn(baisc)
- **Cloud & AWS Services:** EC2, S3, Auto Scaling, CloudWatch, VPC, SNS
- **Database:** MySQL
- **Tools:** n8n, Figma, Spline, Framer, Git

Interpersonal Skills

- Excellent communication and documentation skills.
 - Positive attitude and accountability while handling responsibilities.
 - Strong team collaboration.
-

Achievements & Certifications

- **Certifications:** UX Design (Accenture Digital Skills), IBM Design Thinking Practitioner Badge, and SAS Model Studio Badge.
 - **HackWithUP (State-Level Hackathon):** Designed UI/UX for an EdTech platform in a 4-member team, optimizing user flows and enhancing interface clarity.
 - **CAB 2026 (Corporate Advisory Board):** Selected as a Liaison Officer, facilitating executive coordination during the event and developing professional communication, networking, and event management skills.
-

Hobbies & Interests

- **Designing:** Exploring and designing user interfaces using Figma with a focus on improving user experience.
- **Music:** Exploring vocal techniques, demonstrating creativity and discipline.
